PROGRAM STRUCTURE: YEAR-BY-YEAR

Each Academic Year is subdivided into six modules: three thematic, two skills-oriented, and one project-oriented.

First year: The learning experience focuses on the “What?” to gain a foundation in concepts and disciplinary approaches in each subject area. *Credit Requirements:* mandatory courses (44 ECTS credits) and mandatory electives (16 ECTS credits) = 60 ECTS credits total.

Second year: The learning experience focuses on the “How?” in order to strengthen the capacity to explore, discern and question problems and to build knowledge and skills in research methodologies. *Credit Requirements:* 1 mandatory course (4 ECTS credits), mandatory electives (44 ECTS credits), and experiential learning (12 ECTS credits).

Third year: This year is considered the “Why?” year, in which courses focus on analysis. The fall term of the third year is also when students have the opportunity to study abroad. In the winter and spring students will complete their thesis.

PROGRAM STRUCTURE: THEMATIC MODULES

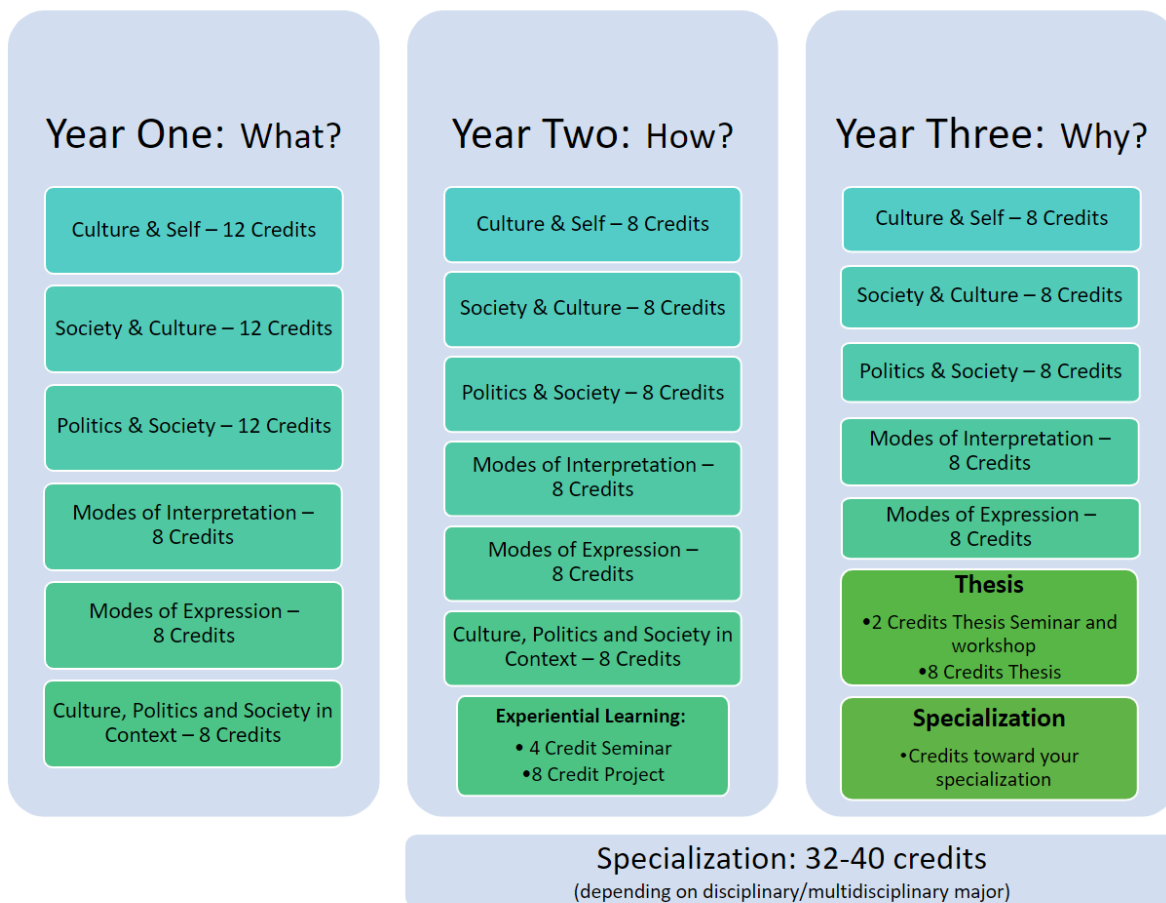

The CPS Program consists of modules, from which students are required to draw their courses over the course of the three-year program. Modules are completed successfully once students have passed the mandatory and elective courses in the module.

Each CPS-hosted course is designated to fulfil the requirements of one (or more) module(s). If a course fits multiple modules, the student must select which single module they would like the credits to fulfil.

The module requirements are as follows. Before graduation, students must have completed at least:

- 28 ECTS credits of Culture and Self courses
- 28 ECTS of Politics and Society courses
- 28 ECTS of Society and Culture courses
- 24 ECTS credits of Modes of Expression courses
- 24 ECTS credits of Modes of Interpretation courses
- 16 ECTS credits of CPS in Context courses
- 20 ECTS credits of thesis courses

It is recommended that students distribute the module requirements equally throughout their studies.

The modules in the CPS program are:

Module	Upon completion of the relevant module, students will have learned...

To conduct and complete an undergraduate academic thesis project that derives from previous work in the student’s field.

Module designation is carefully curated by the CPS program. However, should a student take a course outside of the course offering that has been pre-assigned to modules, or if they think a specific course fits another module, they may submit a petition to count a class towards an alternative module. The petition should be submitted via this [Microsoft Form](#) by the end of week 6 of the term in which a class takes place. Petitions will be reviewed by the Program Director and students will be informed of the decision before the start of registration for the following term.

Please refer to the CEU Course Hub (<https://courses.ceu.edu/unit/undergraduate-studies>) for up-to-date course offerings each year.

SPECIALIZATIONS AND CREDIT REQUIREMENTS

In their second year, students will be required to declare their subject specialization. The Program Coordinator will send students a form at the end of fall term. Students who

enrolled before AY 2023/24 may choose between a disciplinary specialization or a multidisciplinary specialization. Students enrolled in AY2023/24 must choose one of three multidisciplinary specializations.

Disciplinary specializations (available to students enrolled before AY 2023-24):

Cultural Heritage

Environmental Studies

Gender Studies

History

Human Rights

International Relations

Medieval Studies

Nationalism Studies

Philosophy

Political Science

Sociology and Social Anthropology

*Visual Theory & Practice**

**Please note that Visual Theory & Practice is not offered as a standalone specialization and may only be selected as a double specialization in conjunction with specialization in another subject.*

To complete a disciplinary specialization, students must earn a total of 72 ECTS credits:

- 32 ECTS credits from courses in the specialization taken during Years 2 and 3 of their studies
- 20 ECTS in thesis courses (4 ECTS thesis seminar & workshop, 16 ECTS written thesis); the thesis must be in the field of specialization.
- Mandatory courses do not count towards the specialization.

Students also have the option to complete their degree with a dual specialization:

- Students must take 32 ECTS during Year 2 and Year 3 in each of their chosen disciplines (32 ECTS for specialization 1 and 32 ECTS for specialization 2)
 - Course credits may only count towards one specialization (i.e., if an offered course falls into two different specialization subjects, it may only be counted towards one of them)
- 20 ECTS in thesis courses (4 ECTS thesis seminar & workshop, 16 ECTS written thesis); the thesis must be completed in the field of one of the specializations.

Multidisciplinary specialization (available to all students)

There are three multidisciplinary specialization and *Visual Theory and Practice*:

Cultural and Historical Studies (History and Medieval Studies, Nationalism Studies, Cultural Heritage, Philosophy)

Political, Legal and Governmental Studies (International Relations, Political Science, Legal Studies, Human Rights, Public Policy, Political Philosophy)

Social and Environmental Studies (Environmental Studies and Policy, Gender Studies, Sociology, Social Anthropology, Social Philosophy)

*Visual Theory and Practice**

**Please note that Visual Theory & Practice is not offered as a standalone specialization and may only be selected as a double specialization in conjunction with a multidisciplinary specialization.*

Students who are not completing the Visual Theory and Practice specialization have the option to count Modes of Expression courses (eg. Fundamentals of Documentary Filmmaking) towards their specialization. This is contingent upon approval from the Program Director. Students who wish to petition for a Modes of Expression course to count towards a non-VTP specialization should complete this [Microsoft Form](#). Students will be required to provide information documenting that their final project for the course relates to their specialization. The petition should be submitted by the end of week 6 of the term in which the class takes place. Petitions will be reviewed by the Program Director and students will be informed of the decision before the start of registration for the following term.

Up to date course lists for each specialization discipline can be found on the Undergraduate Studies website (<https://undergraduate.ceu.edu/students>)

To complete a multidisciplinary specialization, students must complete:³

- 40 total ECTS from courses in the multidisciplinary specialization taken during Year 2 and Year 3. Students should take at least 4 ECTS credits in each contributing discipline
- 20 ECTS in thesis courses (4 ECTS thesis seminar & workshop; 16 ECTS written thesis). The thesis should be multidisciplinary.
- Mandatory courses do not count towards the specialization

Students who also want to specialize in Visual Theory and Practice (VTP) must complete:

- 40 total ECTS from courses in the multidisciplinary specialization taken during Year 2 and Year 3. It is recommended that students take at least 4 ECTS in each contributing discipline.
- 40 ECTS in VTP courses taken throughout the 3 years of study.
- 20 ECTS in thesis courses (4 ECTS thesis seminar & workshop; 16 ECTS written thesis). The thesis should be completed in one of the fields of the major.
- Mandatory courses do not count towards the specialization
